

EZ Gimper Instructions

Fig. 1

Fig. 1-

Cut two plastic laces 12” long of contrasting colors. Hold the EZ Gimper® with one hand, with the star side facing up. Thread ends of one color through slots 1 and 3, and thread the other color through slots 2 and 4. Turn EZ Gimper® over to begin. Spread the lacing out so you can see the “X” in the middle.

Tighten the stitch by evenly pulling on all of the ends. Repeat steps 2-5, starting with any number. Just remember to work in one direction around the EZ Gimper®.

Remember:

keep same-color strands from crossing and try to prevent the lines from twisting before you tighten each layer.
